

TASK QUIZ23

English-Swahili Translation and Editing

Here's a Non-Governmental awareness information guide document aimed to inform rural communities about clean water practices, disease prevention, and hygiene. The document is in English written version. Translate and Edit the document into Swahili version accurately, appropriately and easy to understand for wide audience.

Source Text (English Excerpt)

"To prevent diseases such as Cholera and Typhoid, always wash your hands with clean water and soap, especially before eating and after visiting the Toilet. Boil drinking water to kill germs and avoid drinking directly from rivers or lakes."

Translated Text (Swahili)

"Ili kuzuia magonjwa kama kipindupindu na homa ya matumbo, daima nawa mikono kwa maji safi na sabuni, hasa kabla ya kula na baada ya kutoka chooni. Chemsha maji ya kunywa ili kuua vijidudu na epuka kunywa moja kwa moja kutoka mito au maziwa."
